

ANSC COURSE FALL 2023

ANSC 3318/5618: PROBIOTICS & PREBIOTICS

MONDAY, WEDNESDAY & FRIDAY 1:25 - 2:15 PM (3 CREDITS)

Open to all students. An overview on probiotics, prebiotics and the microbiome, their biology, health benefits and application in human and animal health. Commercially available probiotic and prebiotic supplements and functional foods will also be discussed.

Prerequisites: Completion of Fundamentals of Microbiology (MCB 2610) and Organic Chemistry (CHEM 2241/CHEM 2443) is highly recommended, but not required.

Registration for this course is currently open!

Contact Instructor Dr. Mary Anne Amalaradjou at mary_anne.amalaradjou@uconn.edu for more information or to request a permission number.
